Indonesian Psychological Research aims at a broad area of questions from theoretical and methodological domains of psychology, as well as applications of psychology to everyday life.

We propose to publish original articles, reviews, actualities, preliminary methodological notes etc. Our goal is to provide psychologists and authors from related science fields the platform for the public presentation of their research findings, opinions or impressions about recent literature, and for another to offer the opportunity to acquaint the professional community with these findings and views.

Indonesian Psychological Research is published twice a year (January and June), and submissions are accepted all year round.
